

"Moving to SaaS was straightforward as Blackboard promised. For the Base Navigation, we carefully communicated the update to our staff and students and there was not one ticket logged asking about the change."

Harriet Walshaw,
Technical Project Manager

"We love what the Base Navigation looks like. It was the first thing students responded to. Just changing the look to make it so modern had a tremendous affect even though everything in the background [courses] remained the same."

Alicia Dunlap,
Director of Technology

"Base Navigation is powerful! I love the global connections to all of my courses and organizations. Using the profile tool is one of my favorite ways to make important initial instructor to student connections. The image, pronouns, and pronunciation features speak volumes!"

Mary Beth Scumaci
Director of Online Learning

"I like Base Navigation because I can access the System Admin from any device. I finally can take a vacation and fix anything from my phone."

*Fatma Elshobokshy
Director of Learning Technology*

"We received positive student feedback on the Base Navigation. They especially like the aggregated calendar view with due dates for graded activities, the clean simplicity of the interface, and the overall brightness of it. "

*Mariann Hawken
System Administrator*

"Our instructors' reaction to the Base Navigation was very positive. They have enjoyed the updated look and like the new customized landing page."

*Teresa Young
System Administrator*
